CASES AND BRACELETS

All cases and bracelets are made from stainless steel or titanium. Standard buckles or folding clasps are used depending on the model.

MOVEMENTS

Aztorin watches are equipped with quartz and automatic movements from the renowned Japanese manufacturers Time Module, Seiko Epson, Miyota or Swiss Ronda and ISA Swiss.

CRYSTAL

All Aztorin models have the more resistant sapphire crystal that is superior to standard mineral glass. In some models the crystal is anti-reflective coated.

STRAPS

Straps are made from genuine leather. Selected sports models are equipped with rubber straps or textile straps.

WATCH DETAILS

Watch details such as crowns, buckles or bracelet clasps are marked with the brand logo – an arrowhead in the shape of the letter A.

ION PLATING

This is state-of-art method of coating, which results in greater wear resistance than the standard galvanizing method.

ADDITIONAL FUNCTIONS

Various functions are available depending on the model, e.g. multi-calendar, day/month, date, seconds, chronograph, GMT, tachymeter and rotating bezel.

WATER RESISTANCE

Depending on the model, watches are water-resistant to 30, 50, 100 or even 200 m. All Sport Collection watches are water-resistant to 100 or 200 m.

QUALITY CONTROL AND SERVICING

Every Aztorin watch is made with the utmost attention to detail. Before it goes on sale, it is subjected to a thorough and scrupulous quality control check. To keep your watch in immaculate condition, we offer professional servicing. Aztorin watches come with a 2-year warranty.
